Why Attend

A sizable share of a company's working capital is tied up in Accounts Receivable (AR), posing a high liquidity risk. In this course, we expand your knowledge and expertise in AR. This will enable you and your organization to manage your accounts receivable effectively without compromising your credit sales.

This course demonstrates theoretical and practical core topics and introduces Excel for managing Accounts Receivable. The course also features role-playing and presentations by participants.

By the end of the course, participants will be able to:

- Develop effective credit policies that meet a company's objectives
- Use billing best practices techniques
- Employ effective collection policies
- Partner with the sales force for the benefit of the company
- Evaluate the Accounts Receivable process and implement best practices
- Apply tools and techniques to monitor AR performance effectively

Accounts Receivable department managers, credit managers, AR staff, AR and revenue accountants, credit officers, billing and collection clerks, AR specialists, and professionals in accounting, finance, operations, and sales who interact with the Accounts Receivable and credit department.

- Managing Accounts Receivable
- Understanding the implications of credit decisions and policy
- Accounts Receivable analysis
- Collection techniques
- Adopting efficient billing techniques
- Preparing accounts receivable aging report
- Monetizing accounts receivable
- Utilizing Excel functions
