Course content

Why Attend

Why Attend Modern internal audit functions are expected to move beyond traditional compliance activities and become strategic contributors to organizational performance. This course enables participants to understand how internal audit can create measurable value through improved governance, risk management, operational efficiency, and proactive assurance practices.

Course Methodology The course combines interactive presentations, case studies, group discussions, practical exercises, audit simulations, workshops, and real-world examples to support practical implementation and professional development.

Course Objectives By the end of this course, participants will be able to:

- Understand the evolving role of internal audit in creating organizational value
- Apply value-based auditing techniques and approaches
- Strengthen risk-focused audit planning and assurance activities
- Evaluate governance and organizational effectiveness
- Improve stakeholder relationships and communication strategies
- Assess emerging audit areas and business risks
- Enhance the strategic contribution of internal audit functions

Target Audience

- Internal auditors
- Audit managers and supervisors
- Risk management professionals
- Governance and compliance specialists
- Internal control professionals
- Audit committee members
- Professionals involved in assurance activities

Course content

Target Competencies

- Internal auditing
