Course content

Why Attend

Course Introduction

Procurement is the vital organizational process of acquiring goods and materials in the most cost-effective manner, acknowledged as a key driver of profitability through cost reduction.

This Advanced Procurement Skills training course delves into the purchasing process within the broader supply chain context, emphasizing the crucial relationships with suppliers and customers.

Participants will explore methods to align supplier and customer strategies, ultimately enhancing profitability.

The course covers procurement management comprehensively, addressing strategic, tactical, and operational aspects across the supply chain.

Upon completion, delegates will be equipped to implement cost-saving ideas across various business areas, driving significant improvements in their organizations.

Course Objectives

By attending this Training course you should achieve these goals:

- How to Understand the Process of Purchasing Within Their Organisations
- How to Determine the Best Strategy for Managing and Rating Suppliers
- How to Identify Cost Savings Through Changes to Processes
- How to Improve Negotiation Skills
- An Understanding of How to Make Improvements to Organization Processes

Who should Attend?

This training course is suitable for middle and senior managers who have responsibility for operational areas in the organisation, as well as consultants and professionals who support them. For example:

- Operational Managers
- Financial Managers
