Course content

Why Attend

Delivering exceptional customer experiences is no longer a competitive advantage—it is a business necessity. Modern managers play a critical role in shaping customer-centric cultures, leading high-performing service teams, and designing experiences that build loyalty and long-term business value. This course provides practical frameworks, tools, and leadership techniques to help participants develop customer experience (CX) strategies, measure performance, lead customer-focused teams, and drive continuous improvement across the organization.

Course Methodology

The course combines interactive presentations, practical workshops, customer journey mapping exercises, group discussions, case studies, team activities, self-assessments, and real-world customer experience improvement projects.

Course Objectives

By the end of this course, participants will be able to:

- Understand the principles and business value of Customer Experience Management (CXM)
- Develop customer-centric strategies aligned with organizational objectives
- Design and improve customer journeys that increase satisfaction and loyalty
- Measure customer experience using meaningful performance indicators
- Recruit, develop, and lead high-performing customer service teams
- Foster a customer-focused culture across the organization
- Create practical action plans for continuous customer experience improvement

Target Audience

- Customer experience managers
- Customer service managers
