Course content

Why Attend

Resources are fewer, jobs are more demanding, and competition for a place on the high performers wall of fame is fiercer. In order to thrive in the current working environment and develop a winning edge in the labor market, understanding the formula for becoming a super performer becomes a necessity rather than a nice to have option.

The aim of this course is to provide you with proven practical tools that will allow you to establish yourself as a top performer. This course explains the multiplicative nature of productivity while also taking you through a deep dive into the 5 essential elements of top performers. By successfully completing this course, you will have developed a clear map that can guide you towards scoring 100% on the productivity formula.

The workshop is designed to be interactive and participatory. It includes various pedagogical tools to enable participants to function effectively and efficiently in a multilateral environment. The course will be built on four pedagogical pillars: concept learning (presentations by the consultant), role playing (group exercises), experience sharing (round-table discussions) and exposure to case studies and scenarios.

By the end of the course, participants will be able to:

- Explain the SUPER productivity formula and its multiplicative nature
- Adopt short and long-term activities that allow them to continuously develop towards skills master
- Master the techniques that avail uninterrupted focus time at work
- Establish trust based relationships with key people to ensure high responsiveness
- Manage their physical energy on a daily basis to maintain consistently high levels of performance
- Adopt a mindset of organizational relevance to invest resources into what matters most for the organization

This course is targeted at employees, supervisors, and middle managers seeking to optimize their productivity through a rigorous and systematic approach.

- Performance optimization
- Self development
- Time management

Course content

Why Attend

- Prioritization
- Building rapport
- Influencing others
- Building trust
- Optimizing colleagues responsiveness
- Managing personal energy
- Goals alignment

Course outline

The SUPER formula for top performers

- Characteristics distinguishing a top performer
- The personal benefits of being a top performer
- The 5 elements of top performance:
 - Skills
 - Uninterrupted time
 - People
 - Energy
 - Relevance
- The productivity formula – $S \times U \times P \times E \times R = \% \text{ of performance}$
- The multiplicative nature of the productivity formula
- Top performance as a choice

Skills mastery – The 1st element

Course content

Course outline

- Defining mastery – good is the enemy of great!
- Kaizen – the continuous improvement principle
- Strategies to reach mastery level in your area of expertise
- Indicators that you have become a skill master
- The conscious competence learning matrix
- How to lead yourself towards mastery in the absence of a leader
- Uninterrupted time for optimal focus – The 2nd element
- The focus curve – time segments do not add up
- Evaluating the myth of multitasking
- De-focusers: how and why people lose focus
- Fighting procrastination
- Effectively managing internal and external interruptions for optimal focus
- What to focus on – the time matrix revisited for a technology-based generation
- Calculating your return on time

People responsiveness – The 3rd element

- The chain effect – no one task is done solely by one person
- The relationship matrix – identifying key people for your optimal performance
- The benefits of optimizing responsiveness of key people
- Turning key people at work into success partners
- The responsometer – practical tool to measure and improve people responsiveness at work

Establishing trustworthiness – the core four

- Integrity

Course content
