Course content

Why Attend

Why Attend Modern managers must lead in an environment shaped by rapid change, digital transformation, talent competition, and increasing uncertainty. Success requires advanced capabilities in analytics, risk management, recruitment, leadership, and artificial intelligence. This course equips participants with practical tools and modern management strategies to improve performance, make informed decisions, and lead future-ready organizations.

Course Methodology This course uses an interactive and practical approach through presentations, case studies, management simulations, group discussions, analytics exercises, leadership activities, and real workplace examples.

Course Objectives

- Apply advanced management practices in dynamic environments
- Use analytics and forecasting for better decisions
- Strengthen risk management and crisis readiness
- Improve recruitment and talent acquisition strategies
- Build and lead high-performance teams
- Understand AI applications in management
- Improve communication and productivity
- Create a practical management improvement plan

Target Audience

- Managers and Supervisors
- Department Heads
