Course content

Why Attend

This course combines two of eight modules of the Advanced Certificate in Human Resource Management which are Strategic Human Resources and Employee Engagement.

Strategic HR involves organizational planning to achieve success and create value for stakeholders. HR demonstrates value by contributing its perspective and expertise to development of the enterprise strategy, and by developing, implementing, and evaluating an HR strategy aligned with the organization's goals, values, and tactics, as defined in the enterprise strategy.

Employee Engagement solidifies the connection and relations among employee, manager, and the organization's mission, vision, values, and goals. HR demonstrates value by understanding and leveraging the employer-employee relationship from both individual and organizational perspectives, developing effective strategies to address appropriate expectations for performance and behavior from employees at all levels. Key considerations include culture, work-life balance, ethics and CSR.

Course Methodology

Modules within the Advanced Certificate in Human Resource Management (ACHRM) are uniquely designed; no prerequisites are required, and the learner can enter the program at any time. Plus, the complete Certificate program involves a wide variety of learning experiences including group discussions, individual and group activities, case studies, toolkit development and a post-test reinforcement of learning at the end of each module.

Course Objectives

Strategic Human Resources Module

By the end of the module participants will be able to:

- Define and describe organizational strategy and recognize the major components of a good organizational strategy.
- Create an HR strategy that is linked to an organizational strategy.
- Create an HR strategy implementation plan in order to execute strategy.

Course content
